the Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes which are self propelled and sea going regardless of classification before the time

only those vessels classed by Lloyd's register were listed vessels are listed alphabetically by their current name

The Lloyd's register technical association (Lrta) was established in 1920 with the primary objective of sharing technical expertise and knowledge within Lloyd's register publications. These publications have consistently been released on a yearly basis with a brief interruption between 1938 and 1946. These publications serve as a key reference point for best practices and were initially reserved for internal use to maximise Lr's competitive advantage. Today, the Lrta takes a fresh approach focusing on collaboration by combining professional expertise from across Lr's group to ensure a frequent output of fresh perspectives and relevant content. The Lrta has evolved into a group-wide initiative that identifies, captures, and shares knowledge spanning various business streams and functions to support this modern approach. The Lrta has adopted a new structure featuring representatives and senior governance across the business streams and the Lr foundation. The Lloyd's register technical association papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current Lr technical association. The Lloyd's register staff association (Lrsa) changed its name to the Lloyd's register technical association (Lrta) in 1973.

includes the decisions of the supreme courts of Missouri, Arkansas, Tennessee, and Texas, and the court of appeals of Kentucky (Aug-Dec 1886), May-Aug 1892, court of appeals of Texas (Aug 1892-Feb 1893, Jan-Feb 1928), courts of civil and criminal appeals of Texas (Apr-June 1896, Aug-Nov 1907), court of appeals of Indian Territory (May-June 1927, Jan-Feb 1928), courts of appeals of Missouri, and the commission of appeals of Texas.
