core concepts in education are changing for example professional performance or expertise is not uniquely the fruit of specialist knowledge acquired at professional schools but the sum of influences exerted by a complex web of continuous learning opportunities for which an individual is well or ill prepared by their schools and their workplace the key contributory factors to professional expertise are how professional schools connect to professional practice how schools prepare graduates for continuous learning and how the workplace endorses continuous development thus the question this volume addresses how to design learning and working environments that facilitate the integration of these three elements is at the heart of contemporary pedagogical theory the authors also ask a second vital question how do we educate learners that go on to maximize their life s learning opportunities by regulating their own ongoing learning learning at the crossroads of theory and practice argues that with the theory of learning at a crossroads this is an unprecedented opportunity for learning about learning the book sheds light on different elements of this challenge integrating theory and practice in business education generating and fully exploiting workplace learning opportunities and enriching our classrooms by coupling theoretical knowledge with the richness of real life experience

if you are a doctoral or non doctoral student about to begin your internship in school psychology you may have several questions about the process and what it will involve and you may even be facing some anxiety about it if you are a site or university supervisor preparing for the beginning of the internship year you may be looking for ways to improve the internship experience for your students or for yourself and your fellow supervisors newman has used his many years of experience working with interns and field supervisors to create this guide to the school psychology internship process to address these common concerns he provides a comprehensive overview of the school psychology internship process from start to finish describing actions that can be taken to promote a high quality dynamic internship experience emphasis is placed on the idea that the internship year is a dynamic and formative experience not a static event and that interns and supervisors both must be active planners coordinators and shapers of the experience each part of the book explores a different phase of the internship from the first days through job applications and interviews helpful and pragmatic tools are included throughout such as evaluation tools best practice guidelines and sample forms online resources are also available to complement the book and include reproducible material from the book videos students can use to practice their interviewing skills and links to helpful resources
