a look into the life of america s first president and the efforts to recreate what he may have actually looked like at different points of that life george washington s face has been painted printed and engraved more than a billion times since his birth in 1732 and yet even in his lifetime no picture seemed to capture the likeness of the man who is now the most iconic of all our presidents worse still people today often see this founding father as the old and grumpy washington on the dollar bill in 2005 a team of historians scientists and artisans at mount vernon set out to change the image of our first president they studied paintings and sculptures pored over washington s letters to his tailors and noted other people s comments about his appearance even closely examined the many sets of dentures that had been created for washington researchers tapped into skills as diverse as 18th century leatherworking and cutting edge computer programming to assemble truer likenesses their painstaking research and exacting processes helped create three full body representations of washington as he was at key moments in his life and all along the way the team gained new insight into a man who was anything but old and grumpy join award winning author carla killough mcclafferty as she unveils the statues of the three georges and rediscovers the man who became the face of a new nation

faith is one of the most critical aspects of the christian life because it is the means by which we receive all that god has secured for us yet the nature of faith is one of the most misunderstood concepts of christianity some conceptualize faith as some mental state that one must reach before they are able to tap into god s resources others view faith as some sort of incorporeal substance that is out there for which we must reach all of these concepts of faith are deficient if not heretical and yet all of them are found in the church others view faith as a mere fantasy or hope with no basis in reality and thus religious claims are excluded from the arena of knowledge for a number of years my heart has been troubled over the doctrine of faith as it is received and taught among evangelical christians everywhere great emphasis is laid upon faith in orthodox circles and that is good but still i am troubled specifically my fear is that the modern conception of faith is not the biblical one that when the teachers of our day use the word they do no mean what bible meant when they used it i also share the same concerns with a w tozer when he said the cause of my uneasiness are these 1 the lack of spiritual fruits in the lives of so many who claim to have faith 2 the rarity of a radical change in the conduct and general outlook of persons professing their new faith in christ as their personal savior 3 the failure of our teachers to define or even describe the thing to which the word faith is supposed to refer 4 the heartbreaking failure of multitudes of seekers is they are even so earnest to make anything out of the doctrine or to receive any satisfying experience through it 5 the real danger that a doctrine that is parroted so widely and received so uncritically by so many is false as understood by them 6 i have seen faith put forward as an escape from reality a refuge from the necessity of hard thinking a hiding place for weak character natural optimism emotional thrills and nervous tics therefore in the pages of this book i will endeavor to outline for your benefit the dynamics of faith what is faith how does faith works how to grow in faith the power of faith the excellency of faith the demand of faith the perseverance of faith the challenges of faith the object of faith the effect of faith the response of faith the discipline of faith the necessity of faith and many more are discussed

for almost a century the concept of guilt as embedded in drive theory has dominated psychoanalytic thought increasingly however investigators are focusing on shame as a key aspect of human behavior this volume captures a range of compelling viewpoints on the role of shame in psychological development psychopathology and the therapeutic process donald nathanson has assembled
